TIED TO A STAKE.

Extraordinary Freak of a De-ranged Tailor.

The Ghastly Discovery of Some Hay-makers—A Horrible Suicide in a Desolate Sea Marsh—Sad Effects of a Case of Sunstroke—A Demented Man Strangled Himself With a Bit of Wollen Cord.

NEW YORK, Aug. 27.—George Vreet land, Westley Williams and Edward Williams, of Bayonne, were cutting the saltgrass in what are called the West Meadows, between Newark and Elizabethport, on Saturday afternoon. At some distance from them they noticed a man who appeared to be lying on the ground asleep, but as he did not move for an hour they went closer and saw that the man was dead and that he was tied by the neck to a stake. When the Chief of Police of Bayonne was informed of the discovery he telephoned to Chief Jenkins, of Elizabeth, and County Physician Terrill and some officers went from Elizabeth to bring in the body. They hunted through the meadows all the morning without finding it, and it was only after enlisting the services of two of the haymakers that the remains were found. The spot was desolate even for a suicide to die in. It was some one hundred and fifty yards back from Newark Bay and not far from Bound Creek. No roads led to the spot, rank marshes spread round about it, and for two miles there was not a house in sight.

When the scared party approached the body it was found that the upper portion was not resting on the ground at all. The fastening which went round the man's neck and then round the top of a stake was a strip of knitted wool. The stake was an old one, shaped like a thick, short fence post. It was only set in the soft mud about a foot, and the weight of the man's body had pulled it over, so that it stood at an angle of about forty-five degrees, but yet held his head in the air. It was evident that the man had strangled himself, but whether he had found the stake where it was or whether he had set it up himself could not be easily determined. The stake is now at police headquarters in Elizabeth. The suicide was a man of about forty-one years, five feet ten inches in height, dressed in a navy blue suit, with a brown straw hat and Congress gaiters. Only twenty-seven cents were found in his pockets, together with a pipe and tobacco pouch, a knife and some needles and thread, which tended to prove that the man was a tailor. From all appearances the body had not lain more than twenty-four hours when found. It was taken by the county physician in a boat to Elizabethport and thence removed to an undertaker's wagon.

Since his arrest a constable has arrived from Ridgeway, with a warrant for his arrest on the charge of shooting a man there on Tuesday and dangerously wounding him. There is strong talk among the colored men here of lynching the murderer, as Major Ashton was very popular, not only among those of his own race, but among the whites as well.

When the finding of the body was first announced it was thought that it might be that of Mr. Booth, the missing ticket agent. But the remains had not been in an undertaker's establishment at Elizabeth more than half an hour when Detective McManus, Dr. Smith and two other friends of William Nolte, a tailor, living at No. 98 North Canal street, Newark, came to view them. Nolte was overcome by the heat while working at No. 11 Belmont avenue last Monday. He left the shop then and had not been heard from since. The face of the body was mutilated, but the party readily identified it from the clothing as that of the missing tailor. Nolte was not an intemperate man, nor was his mind unsound before he was affected by the heat on Monday. It is supposed that he wandered about aimlessly for several days, ignorant of his own actions; that he found himself on the meadows, whose desolate atmosphere increased his mental derangement, and that finding the post, as described, he strangled himself to death. He was much respected by his neighbors in Newark, who had yesterday morning issued a circular describing his appearance when last seen and the circumstances of his disappearance. He left a wife and two children.

A STEER AT SEA.

Singular Discovery of a New York Yachtman.

NEW YORK, Aug. 27.—Captain Frank

Robinson, owner of the yacht Fremont, of

Tottenvile, Staten Island, started for a

fishing cruise a few days ago. While an

adow near the Horseshoe Captain Robi

nson espied an unfamiliar object moving

about in the lower bay. Lowering a boat

he pulled toward the thing and, after

rowing a mile, came up with a large

steer. A heavy board was attached by a

rope to the animal, which, however, was

swimming easily. The distance from

shore was three miles. The Captain at-

tached a rope to the animal's horns and

freed it from the board. Heading his boat

to the shore the steer was guided that way

and landed near Sandy Hook seemingly

exhausted by its long swim, which Cap-

tain Robinson estimates must have been

at least seven miles. After a brief rest

the animal started away from the beach,

apparently making for home, and the

Captain returned to his yacht.

DISPATCHES to the New Orleans Times-Democrat from all sections of the cotton belt show considerable falling off in crop prospects compared with last year except in Tennessee and some portions of Texas, caused by drought, caterpillars and boll worms. The decrease is estimated in some places at thirty-three-one-third per cent. Many reports from Texas also show a falling off in the outlook. The corn crop is also reported considerably damaged by drought.

The Philadelphia Times says: The latest contribution to the silver coinage history of this country is the announcement that \$100,000 are to be spent in providing storage for light-weight dollars that nobody wants, but which the Government is compelled by law to continue coining and storing at the rate of \$28,000,000 a year. How rapidly this pile of useless silver has grown may be seen by comparing the amount of silver in the Treasury September 30, 1878, with the amount on hand at present. At the former date there was in the Treasury, all told, \$227,033,142 of silver. At the latest report the amount had swelled to \$146,187,077. About one-half of this big hoard has been practically forced into circulation by the use of silver certificates, leaving \$72,000,000 lying in the Treasury to be counted in the cash assets of the Government. This silver is intrinsically worth about eighty-five cents on the dollar when compared with the gold standard.

FOREIGN.

Riots in Ireland—State of Affairs in Spain.

LONDON, Aug. 27.—The quaymen at Newry, County Down, Ireland, attacked an excursion train from Belfast, throwing stones through the carriage windows and injuring several passengers, as the train was near Warren Point. Persons on the train replied by firing pistols from the windows and doors, and several persons were shot and some of them fatally. A dangerous riot was only prevented by the police ordering the train to move on.

LONDON, Aug. 29.—A French nobleman was killed while ascending Petzberminia, the highest mountain of the Engadine group, Switzerland.

SPAIN.

MADRID, Aug. 27.—There is increasing opposition to King Alfonso's visit to Germany.

MADRID, Aug. 27.—Among the troops which King Alfonso received at Logrono Saturday was a regiment of Numancia cavalry which participated in the late revolt. The King, addressing this regiment, rebuked it for mutinying, and urged that the men be true to their country, so Spain might be able to hold her position among the nations. At the end of the King's remarks the regiment cheered him heartily. Alfonso has arrived here.

RUSSIA.

ST. PETERSBURG, Aug. 27.—Advices from Ekaterinoslav, the scene of the recent riots against the Jews, say that 343 houses were wrecked and plundered during the progress of the riot. The losses sustained by the Jews are estimated at 611,000 roubles. Fourteen Russians, who were wounded by troops in quelling the outbreak, have since died, making the total killed twenty-eight.

Numerous cases of Jew baiting are reported at places elsewhere than Ekaterinoslav, but the police and troops are acting with energy. In most instances they promptly suppressed any attempts at outrages against the Jews. At Berchadi, however, eighty houses of the Jews were fired, and their former inmates are without shelter and suffering great privations.

A Mexican lady of rank has hair two and a half yards long. It is a mighty fortunate thing for Mexicans that she is a lady of rank instead of a cook in a boarding house.

A lady at one of the Long Branch hotels has already exhibited forty different costumes and has two maids employed making her gowns for her, which she puts on as fast as compleat.

President Arthur says: "I had a chance to see two things on which Kentucky plumes herself—her horses and her beautiful women—and now I am a thorough believer in both of them."

One of the ladies who petitioned the New Hampshire Legislature in favor of woman suffrage, lives in Concord and pays a tax of \$3,000. Women in Dover pay taxes on property worth over \$1,000.

At a recent party in London, Mrs. Baroness Burdette William Bartlett Coutts wore but a single ornament, a plain black velvet around her neck, fastened at the throat by a solitaire that was worth \$140,000.

Under the Married Woman's Property act, which lately went into effect in England, a novel case was brought on July 27th before the Court of Appeal for the Chancery Division. The point to be argued was, in brief, whether or not a married woman having a house settled upon her for her separate use can turn her husband out and obtain from the Court an order forbidding him all access to it. Mr. Justice Chitty had previously granted the desired injunction, and the Master of the Rolls and his colleagues saw sufficient reason for denying the appeal, but they all declined to give any opinion as to the main question and intimated that it must eventually be taken to the House of Lords for decision.

The Master of the Rolls asked whether the Court could be expected, on the hearing of an interlocutory application, to decide a question "which might have the effect of altering the whole social life of England."

In Virginia they are making flour of peanuts, and it is praised. It is customarily in Georgia to pound the nuts for a pasty.

MR. SALOMON received yesterday a de-
spatch from Mr. Vance, manager of the
United States Electric Light Company,
which stated that he will arrive in Mays-
ville this evening or to-morrow morning,
and on his arrival will take pleasure in
enlightening our citizens in regard to the
electric light and its uses. It is probable
that the local company will be organized
to-day or to-morrow as only eighteen
shares of the stock needed remain to be
subscribed. Mr. Salomon may con-
gratulate himself that his work in this city is
about ended and his efforts have met
with success.

THE members of the Great American
Fish Company, of East Maysville, are re-
quested to meet at their usual place of
business this evening at seven o'clock for
the transaction of important business. It
should also be borne in mind that the Grand
High Jerker will apply the rod vigorously to any member who fails
to put in an appearance.

THE handsome iron cornice on the new
jail is the work of Messrs. Bisset,
McClanahan & Shea, and is as neat and
attractive as any ever put up in this
city, where such work is always done in
the best style. The firm named make a
specialty of cornice work, and are able
to give low prices and guarantee perfect
satisfaction.

THERE are several reasons why the
Equitable life takes the lead of all others
doing business in the United States. One
reason is the promptness with which
losses are paid, the society not taking
the usual sixty to ninety days time.
This is the rule and not an exception.
Below is a sample. Any person desiring
life insurance would do well to apply to

THE SNOB CARAVAN.

Rufus Hatch's Bench Show of Dudes.

The Sore Troubles of a Worried Old Man—His Foreign Guests Eating Him Out of House and Home—“Charge It to Buster” on Gigantic Proportions—Distinguishing Cases of Aristocratic Dead-Beating.

ST. PAUL, Aug. 27.—Rufus Hatch is having no end of trouble with the English dudes and menagerie. At dinner each day they run a huge wine bill against him and had him charged \$23 before they had been in the hotel a half hour. One of them alone has cost him \$2,500 since he left England. One of them went over to the only store and purchased a pair of drawers and told the proprietor to charge it to Rufus. The manner in which these dudes got into the party is astounding.

Mr. Hatch invited the head of a great family who boasts of a Lord High Chancellorship. The said head wrote to know if he could send a substitute. Permission being granted the said head asked if he couldn't ring in a companion. Rufus acceded to the request and said head then wrote that the two couldn't come unless a chum of theirs was sent along who had already been invited to spend the summer with them. Rufus finally let in the third. Then said head wrote that the third party had a twin brother who was inseparable, and the game was “whole hog or none.” In desperation Uncle Rufus gave consent.

The dudes, six in all, came on with only one idea—that this is a free country—and they have used the Hatch pocket to the tune of \$10,000 already. They have snubbed all the rest of the party, demanded the best and first places, and with consummate gall overlooked the existence of others.

Lord Hoadly, a peer of Parliament, is scandalized, and he and others, in mortification, have paid every bill of theirs they could keep away from Mr. Hatch, and Uncle Rufus is reported to have said that if he gets out of the scrape with enough to keep his family through the winter he will never do it again.

FATAL MINGO.

Another Severe Crash Near the Old Spot.

STEUBENVILLE, O., Aug. 27.—Another accident has occurred at Mingo Junction, within one hundred yards of the big accident in 1878. The eastbound freight, No. 46, had until 1:13 to make Mingo, but the Cincinnati express, No. 1, on time, collided with her, ten minutes late. Beside the engines one postal car was wrecked, Engineer Charles Wolf, of Dennison, and Postal Clerks William M. Newman and John B. Hoyt, both of Indianapolis, were injured, Hoyt fatally.

Engineer Wolfe, of the passenger train, had two ribs broken and a thumb mashed, and postal clerks Hoyt and Newman, of Indianapolis, were seriously injured, the former probably fatally. The passengers escaped with a bad shaking up.

The accident was caused by carelessness on the part of the crew of the freight train.
